

Brushes for the wood machining industry

Satin Brushes

Satin brushes are the perfect tool for satining, polishing, abrading/smoothing, matting and structuring.

Staple Set Wheel and Disc Brushes

Wheel and Disc Brushes with abrasive nylon filament are used for the wood machining industry. Used on angle grinders, the disc brushes are ideal for maintaining, cleaning, structuring or polishing wood.

Besides the brushes are used for giving wood a rustic effect or for roughening it before treating with colour or lacquer.

The brushes are very effective when working on large surfaces.

Item Nos. in **bold** are available ex stock. Consider our minimum order value for *italic printed* article numbers (see page 139).

- STM = brass coated steel
- STL = cord wire, crimped
- ROF = stainless steel wire
- SIC = silicon carbide bristles
