Article Description Marketing	DIY Cup shank brush
On Stock as per Catalogue	Yes
Catalogue Page	143
Product Description short	DIY Cup shank brush, with a diameter of 75 mm, shank diameter of 6 mm and 80-grit silicon carbide bristles

Product Description long	The cup shank brush is mounted in hand-operated grinders and flexible shafts. It is used for derusting and polishing, removing paint and dirt, rounding edges and light deburring work. Its high-quality silicon carbide bristles meet these special requirements. The brush, with its permanently mounted 6 mm shank, is suitable for professional use. The dense filling and perfectly balanced running properties are characteristic of this all-round tool. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, in stair, railing and container construction, as well as in the skilled trade and by DIYers.
Processed Surface	Bronze | Stainless steel | Plastic | Aluminium | Copper | Zinc
