Product Description long	The tube brush is used to manually remove rust, dirt and paint. The brass filling is suitable for soft and sensitive surfaces. The tube brush with external thread is a preferred choice in a wide variety of fields. It can be used to clean tubes, grates, sleeves and cylinders. The interior brush is also suitable for deburring cross bores. For use on interior areas, the diameter should be selected to match the workpiece. The external thread makes it possible to extend the brush using the corresponding handles. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, repair shops, industrial companies and by DIYers.
