

Carbon fibre brushes

ArtNr. 047754

Carbon fibre brush CP with sleeve stainless dia 8 mm GL 72 mm carbon fibre trim length 42-45 mm thread M6x0.75 outer with shrink tubing

Characteristics

Technical data

Art. Description ERP	Carbon fibre brush CP with sleeve stainless dia 8 mm GL 72 mm carbon fibre trim length 42-45 mm thread M6x0.75 outer with shrink tubing
Brush Overall Length [GL]	72 mm
Filling Height [H]	42-45 mm
Net weight	0.007 kg
Housing Diameter [DH]	8 mm
Brush Diameter [D]	8 mm
Filling material	Carbon fibre
Thread External Diameter [GA]	M6x0.75
Housing Material	Stainless
Art. Group	Carbon fibre brushes CP

Order information

ArtNr	047754
EAN	4017359417171
Commodity code	96039099
Packing Unit	10 Stk./pcs./ud.
PEFC	No
Country of origin	D

Marketing

Utilizing Industries	Metalworking industry
Application	Removing heat discolouration Coating Marking Removing scale Polishing Cleaning Weld seam finishing
Application Description	The carbon fibre brush is used for cleaning, polishing, marking, and coating, for removing heat discolouration and scale.
Article Description Marketing	Carbon fibre brushes
On Stock as per Catalogue	No
Version	Plastic sleeve, black, thread
Catalogue Page	149
Product Description short	Carbon fibre brush with stainless steel sleeve, total length of 72 mm, sleeve diameter of 8 mm, M6 external thread, black shrink tubing and 24K carbon fibre filling
Product Description long	The carbon fibre brush is suitable for many common weld cleaning machines. Can be used for a variety of purposes: cleaning and polishing stainless steel surfaces, marking and galvanising, coating Of premium "Made in Germany" quality, this product is frequently used in the metalworking industry.

Description

Carbon fibre brushes

Carbon fibre brushes from LESSMANN are the ideal tool for use in weld cleaning machines for electrochemical cleaning. Carbon fibre brushes typically are used for cleaning, polishing, marking and galvanising/coating. Thanks to the flexibility of the filling, the brushes can also easily reach hard-to-access areas and get clean results in no time at all. The brushes clean weld seams without leaving behind any residues, and finish surfaces without damaging them. Carbon fibre brushes are compatible with all commercial machines.
