Description

Rivet brushes

Rivet brushes from LESSMANN have a V-shaped filling. As a result, they can effectively clean slag and scale from hard-to-reach welds and fillet welds. The brush body has a dual hanging hole.

Brush body PEFC-certified

These brushes are fabricated with a PEFC-certified beechwood body, meaning they contribute to supporting sustainable, regional forest management.

Brushes in cut cases

Cut cases are perfect for presenting a relatively large number of products. The brushes can be quickly and easily integrated in a modular self-service wall.
