Product Description short
 Fine scratch brush, with body length of 225 mm, PA nylon filling in 4 rows and PEFC-certified beechwood in cut case packaging

Product Description long
 The fine scratch brush is used to manually remove dirt and deposits on soft and sensitive surfaces. It is suitable for fine brush work and for applying solvents and cleaning agents. The body of the brush is made of PEFC-certified beechwood. The version that comes in cut case packaging makes it easier for retailers to display the products. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, goldsmith shops and repair shops.

Description

Fine scratch brushes

Fine scratch brushes have a high filling density and are used to manually remove dirt and deposits on soft and sensitive surfaces. They are suitable for fine brush work and for applying solvents and cleaning agents.

Brush body PEFC-certified

These brushes are fabricated with a PEFC-certified beechwood body, meaning they contribute to supporting sustainable, regional forest management.

Brushes in cut cases

Cut cases are perfect for presenting a relatively large number of products. The brushes can be quickly and easily integrated in a modular self-service wall.
