Marketing

Utilizing Industries	Skilled trades Wood processing
Application	Staining Smoothing Polishing
Application Description	The staining brush is used for staining, smoothing and polishing wood.
Article Description Marketing	Staining brush
On Stock as per Catalogue	No
Version	in cut case
Catalogue Page	140
Product Description short	Staining brush, with body length of 175 mm, leather and fibre filling in 3/7 rows and PEFC-certified beechwood in cut case packaging

Product Description long	The staining brush is used to prepare wood prior to further processing. The brush is resistant to many commercial alkaline solutions. This brush also has integrated leather strips, which give it an added smoothing effect. The body of the brush is made of PEFC-certified beechwood. The version that comes in cut case packaging makes it easier for retailers to display the products. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, carpentry shops and the wood industry.

Description

Staining brushes

Staining brushes from LESSMANN have integrated leather strips for smoothing and polishing any raised wood fibres remaining after staining. These brushes are also known as wax polishing brushes.

Brush body PEFC-certified

These brushes are fabricated with a PEFC-certified beechwood body, meaning they contribute to supporting sustainable, regional forest management.

Brushes in cut cases

Cut cases are perfect for presenting a relatively large number of products. The brushes can be quickly and easily integrated in a modular self-service wall.
