Article Description Marketing	ROKI brake calliper brush
On Stock as per Catalogue	Yes
Version	in cut case | with two-component handle
Grifffarbe_korr	Red | Black
Catalogue Page	140
Product Description short	ROKI brake calliper brush, with body length of 225 mm and steel wire filling in 2 rows in cut case packaging

Product Description long	This special brush is for cleaning brake callipers. It can effectively remove tough build-up caused by wearing brakes. This prevents any damage to the sensitive brake seals during cleaning. The brush is very aggressive and therefore suitable for general brush work or for cleaning welds. The steel wire filling is used on steel surfaces. The ergonomic, two-component handle makes the brake calliper brush easy to grip. The version that comes in cut case packaging makes it easier for retailers to display the products. Of premium "Made in Germany" quality, this product is frequently used in industrial companies, the skilled trades, car repair shops and metalworking plants.

Processed Surface	Steel

Description

Hand brushes ROKI
ROKI hand brushes from LESSMANN are ideal for cleaning brake callipers. This brush can effectively remove the tough build-up caused by wearing brakes. With its two-component handle, the brush is very easy to grip; although the brush is also of very narrow design, the filling is exceedingly strong. This prevents any damage to the sensitive brake seals during cleaning. Thanks to its particularly good brushing effect and ergonomic handle, customers also use this brush for many other purposes, such as cleaning welds.

Brushes with two-component handles
These brushes meet all demands on modern, high-quality tools with optimised ergonomic features.

Brushes in cut cases
Cut cases are perfect for presenting a relatively large number of products. The brushes can be quickly and easily integrated in a modular self-service wall.
