

Single segment brush

ArtNr. 32070319

Single segment brushes RBE dia 100 x 13-17 mm EBD 12 mm tube 30 mm cord wire brassed STL crimped 0.25 mm bore 19.1DKN mm 6x4.9 mm trim length 21 mm

Characteristics

Technical data

Art. Description ERP	Single segment brushes RBE dia 100 x 13-17 mm EBD 12 mm tube 30 mm cord wire brassed STL crimped 0.25 mm bore 19.1DKN mm 6x4.9 mm trim length 21 mm
Filling Height [H]	21 mm
Filling Material Diameter	0.25 mm
Bore Diameter [DB]	19.1DKN mm
Net weight	0.14 kg
Filling Width [A]	13-17 mm
Number of Rows [RZ]	1
Double Keyway [DKN]	6x4.9
Clamping Width Cover Disc [EBD]	12 mm
Tube Diameter [R]	30 mm
RPM max.	8000
Brush Diameter [D]	100 mm
Clamping Width Tube [EB]	0 in
Clamping Width Tube [EB]	2.4 mm
Filling material	STL
Filling Material Shape	Crimped
Art. Group	Single segment brushes RBE

Order information

Marketing

Utilizing Industries	Skilled trades Wood processing
Application	Smoothing Matting Polishing Satinising Structuring
Application Description	The single segment brush is used for satinising, polishing, smoothing, matting, and structuring wood.
Article Description Marketing	Single segment brush
On Stock as per Catalogue	No
Catalogue Page	37
Product Description short	Single segment brush with a diameter of 100 mm, bore diameter of 19.2 mm, double keyway and brass-coated stranded wire filling

Product Description long

The single segment brush is suitable for many common satin finish machines. Can be used for a variety of purposes: satinising, polishing, smoothing, matting, and structuring. It is particularly suitable for brushing out softwood fibres in wood machining. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, carpentry shops and the wood industry.

Description

Single segment brushes

Single segment brushes from LESSMANN typically have a small clamping width and narrower filling width. They are used mainly for deburring work in stationary machines or machining centres. The design of these brushes makes it possible for them to be assembled into wide rollers.

Brushes for wood machining

Brushes for wood machining from LESSMANN are particularly suitable for use on large surface areas. On angle grinders or other hand tools, they are used for maintenance, cleaning, structuring, and polishing. In addition, these brushes are suitable for lending wood a rustic appearance or roughening it before applying a paint or lacquer finish.
