Product Description short	Deburring roller brush, 600 mm wide, with a diameter of 300 mm and stainless steel wire filling

info@lessmann.com | +49 9082 707-0

Product Description long	The deburring roller brush is mainly used in deburring machines. The version with stainless steel wire is used on stainless steel and aluminium surfaces. The dense filling sets this special roller brush apart. The roller brush is balanced without balancing weights, meaning it runs smoothly, with low vibration, throughout its service life. Of premium "Made in Germany" quality, this product is frequently used in the metalworking and plastics industries.
