Description

Miniature brushes
Miniature brushes from LESSMANN are suitable for polishing, cleaning, or deburring small surface areas or workpieces. For example, they can remove slag and scale from weld seams or soldered joints. These brushes can be used on metal surfaces, steel, aluminium, cast iron, plastic, stone or wood. On account of their size, they are ideal for work on precision tools or electronic components, and for use in precision mechanics, pneumatics and hydraulics. These brushes usually are used in hand-operated grinders.
