| Application Description | The cup brush is used for derusting, polishing, deburring, cleaning, and removing paint and scale. |
| Article Description Marketing | Crimped cup brush |
| On Stock as per Catalogue | Yes |
| Catalogue Page | 62 |
| Product Description short | Cup brush with a diameter of 65 mm, M14 thread and stainless steel wire filling |

| | |
|---|---|
| Product Description long | The cup brush is suitable for use with hand-operated angle grinders for derusting and polishing, light deburring work and removing paint, dirt and scale. The brush with stainless steel wire is used for working flexibly on large stainless steel and aluminium surfaces. The dense filling and smooth and accurate rotary motion set this cup brush apart. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, and in stair, railing and container construction. |

## Description

**Crimped cup brushes**
Crimped cup brushes from LESSMANN are used in angle grinders to process large surface areas. They are ideal for derusting, polishing, or removing paint, dirt or scale. The dense filling with crimped wire and the smooth and accurate rotary motion set this brush apart.
