Marketing

Utilizing Industries	Automotive industry Construction industry Skilled trades Metalworking industry
Application	Deburring Removing paint Derusting Removing scale Polishing Cleaning
Application Description	The bevel brush is used for removing rust, paint and scale, cleaning, polishing and deburring.
Article Description Marketing	Crimped bevel brush
On Stock as per Catalogue	Yes
Catalogue Page	65
Product Description short	Bevel brush with a diameter of 100 mm, M14 thread and steel wire filling

Product Description long	The bevel brush is suitable for use in hand-operated angle grinders, for derusting and polishing, light deburring work and removing paint, dirt and scale. The brush with steel wire is used for working flexibly on large steel surfaces. The dense filling and smooth and accurate rotary motion set this bevel brush apart. The aggressiveness is: moderate. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, and in stair, railing and container construction.
