Product Description long	The cup brush is suitable for use with hand-operated angle grinders for derusting and polishing, light deburring work and removing paint, dirt and scale. The brush with steel wire is used for working flexibly on large steel surfaces. The dense filling and smooth and accurate rotary motion set this cup brush apart. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, and in stair, railing and container construction.

Description

Crimped cup brushes
Crimped cup brushes from LESSMANN are used in angle grinders to process large surface areas. They are ideal for derusting, polishing, or removing paint, dirt or scale. The dense filling with crimped wire and the smooth and accurate rotary motion set this brush apart.
