DATASHEET

Miniature cup brush with shank

ArtNr. 430522

Miniature surface brushes STB with 3 x 37 mm shank dia 15 mm brass wire MES crimped 0.10 mm trim length 5 mm

Characteristics

Technical data

Art. Description ERP	Miniature surface brushes STB with 3 x 37 mm shank dia 15 mm brass wire MES crimped 0.10 mm trim length 5 mm
Overall Height [GH]	50 mm
Filling Height [H]	5 mm
Filling Material Diameter	0.10 mm
Net weight	0.003 kg
Filling Width [A]	2 mm
Shank Diameter [SD]	3 mm
Shank Length [LS]	37 mm
RPM max.	15000
Brush Diameter [D]	15 mm
Number of Rows [RZ]	-
Tube Diameter [R]	- mm
Filling material	MES
Filling Material Shape	Crimped
Art. Group	Cup shank brushes STB

Order information

ArtNr	430522
EAN	4017359335789
Commodity code	96035000
Packing Unit	10 Stk./pcs./ud.
PEFC	No
Country of origin	D

Marketing

Utilizing Industries	Skilled trades | Metalworking industry
Application	Deburring | Derusting | Removing slag | Removing scale | Polishing | Cleaning | Weld seam finishing
Application Description	The miniature cup brush is used for cleaning and polishing, processing welds, deburring and removing rust, slag and scale.
Article Description Marketing	Miniature cup brush with shank
On Stock as per Catalogue	Yes
Catalogue Page	91
Product Description short	Miniature cup brush with a diameter of 15 mm, shank diameter of 3 mm and brass wire filling

Product Description long	The miniature cup brush is suitable for polishing, cleaning, or deburring small surface areas or workpieces. This brush can be used on metal surfaces, steel, aluminium, cast iron, plastic, stone or wood. The miniature cup brush can be used, for instance, to remove slag and scale from weld seams or soldered joints. Typical fields of use include precision tools, precision mechanics, electronic components, pneumatics and hydraulics. The brass filling is suitable for soft and sensitive surfaces. With its shank diameter of 3 mm, the miniature brush can be mounted in hand-operated grinders. Of premium "Made in Germany" quality, this product is frequently used in industrial companies and the skilled trades for metalworking, precision tools, precision mechanics, pneumatics and hydraulics.

Processed Surface	Aluminium | Concrete | Stainless steel | Cast iron | Wood | Plastic | Copper | Steel | Zinc

Description

Miniature brushes
Miniature brushes from LESSMANN are suitable for polishing, cleaning, or deburring small surface areas or workpieces. For example, they can remove slag and scale from weld seams or soldered joints. These brushes can be used on metal surfaces, steel, aluminium, cast iron, plastic, stone or wood. On account of their size, they are ideal for work on precision tools or electronic components, and for use in precision mechanics, pneumatics and hydraulics. These brushes usually are used in hand-operated grinders.
