Marketing

Utilizing Industries	Automotive industry Construction industry Skilled trades Metalworking industry
Application	Deburring Removing paint Derusting Removing scale Polishing Cleaning
Application Description	The knot cup brush is used for cleaning, derusting, polishing, removing paint and slag, and deburring.
Article Description Marketing	Cup brush with shank, plastic cup
On Stock as per Catalogue	Yes
Version	Plastic cup
Catalogue Page	83
Product Description short	Cup shank brush with plastic cup, a diameter of 50 mm, shank diameter of 6 mm and stainless steel wire filling

Product Description long	The cup shank brush is mounted in hand-operated grinders and flexible shafts. It is used for derusting and polishing, removing paint and dirt, and light deburring work. The stainless steel filling is suitable for stainless steel and aluminium surfaces. The aggressiveness is: moderate. The brush, with its permanently mounted 6 mm shank, is suitable for professional use. The dense wire filling and perfectly balanced running properties are characteristic of this product. The plastic cup prevents contact with stainless steel workpieces, protecting them from corrosion and foreign particles. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, and in stair, railing and container construction.

Description

Cup brushes with shank

Cup brushes with shank from LESSMANN are ideal for removing rust, paint and dirt, polishing and light deburring work. The integrated shank, dense filling and perfectly balanced running properties are characteristic of this all-round tool. Small- to medium-sized surface areas can be processed more easily by mounting brushes of this type in hand-operated grinders or flexible shafts.

Cup shank brushes with plastic cup

These brushes with stainless steel wires are specially suited to applications on stainless steel materials. The plastic cup prevents contact with the stainless steel workpieces, protecting them from corrosion and foreign particles.
