info@lessmann.com | +49 9082 707-0

Product Description long	The cup shank brush is mounted in hand-operated grinders and flexible shafts. It is used for derusting and polishing, removing paint and dirt, and light deburring work. The brass filling is well suited to soft and sensitive surfaces. The brush, with its permanently mounted 6 mm shank, is suitable for professional use. The dense wire filling and perfectly balanced running properties are characteristic of this product. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, and in stair, railing and container construction.

Description

Cup brushes with shank
Cup brushes with shank from LESSMANN are ideal for removing rust, paint and dirt, polishing and light deburring work. The integrated shank, dense filling and perfectly balanced running properties are characteristic of this all-round tool. Small- to medium-sized surface areas can be processed more easily by mounting brushes of this type in hand-operated grinders or flexible shafts.
