Catalogue Page	143
Product Description short	End brush with a diameter of 12 mm, shank diameter of 6 mm and steel wire filling

info@lessmann.com | +49 9082 707-0

Product Description long	The end brush can be mounted in hand-operated grinders or flexible shafts. It is used to work on hard-to-reach areas, and to clean corners, recessed spots and bore holes. It also is used to clean moulds/castings and to remove residual paint and rubber. The steel filling is suitable for steel surfaces. The aggressiveness is: moderate. The brush, with its permanently mounted 6 mm shank, is suitable for professional use and for high-speed rotating tools. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, and in stair, railing and container construction.
Processed Surface	Wood | Steel | Cast iron
