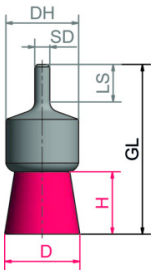
DATASHEET

Miniature end brush with shank

ArtNr. 450881

Mini end brushes SPBK with 3 x 26 mm shank dia 5 mm GL 46 mm abrasive nylon SIC crimped K500 / 0.46 mm trim length 8 mm



Characteristics

Technical data

Art. Description ERP	Mini end brushes SPBK with 3 x 26 mm shank dia 5 mm GL 46 mm abrasive nylon SIC crimped K500 / 0.46 mm trim length 8 mm
Brush Overall Length [GL]	46 mm
Filling Height [H]	8 mm
Grit	K500
Filling Material Diameter	0.46 mm
Net weight	0.005 kg
Shank Diameter [SD]	3 mm
Housing Diameter [DH]	5 mm
Shank Length [LS]	26 mm
RPM max.	15000
Brush Diameter [D]	5 mm
Filling material	SIC
Filling Material Shape	Crimped
Art. Group	End brushes SPBK

Order information

ArtNr	450881
EAN	4017359289150
Commodity code	96035000
Packing Unit	10 Stk./pcs./ud.
PEFC	No
Country of origin	D

Marketing

Utilizing Industries	Skilled trades | Metalworking industry
Application	Deburring | Removing slag | Removing scale | Rounding edges | Polishing | Cleaning | Grinding | Weld seam finishing | Structuring
Application Description	The miniature end brush is used for cleaning and polishing, processing welds, deburring, rounding edges, grinding, structuring, and removing slag and scale.
Article Description Marketing	Miniature end brush with shank
On Stock as per Catalogue	Yes
Catalogue Page	91
Product Description short	Miniature end brush with a diameter of 5 mm, shank diameter of 3 mm and 500-grit silicon carbide bristles

Product Description long	The miniature end brush is suitable for polishing, cleaning, rounding edges or deburring small surface areas or workpieces. This brush can be used on metal surfaces, steel, aluminium, cast iron, plastic, stone or wood. The miniature end brush can be used, for instance, to remove slag and scale from weld seams or soldered joints. Typical fields of use include precision tools, precision mechanics, electronic components, pneumatics and hydraulics. Its high-quality silicon carbide bristles meet these special requirements. With its shank diameter of 3 mm, the miniature brush can be mounted in hand-operated grinders. Of premium "Made in Germany" quality, this product is frequently used in industrial companies and the skilled trades for metalworking, precision tools, precision mechanics, pneumatics and hydraulics.

Processed Surface	Aluminium | Concrete | Stainless steel | Cast iron | Wood | Plastic | Steel

Description

Miniature brushes
Miniature brushes from LESSMANN are suitable for polishing, cleaning, or deburring small surface areas or workpieces. For example, they can remove slag and scale from weld seams or soldered joints. These brushes can be used on metal surfaces, steel, aluminium, cast iron, plastic, stone or wood. On account of their size, they are ideal for work on precision tools or electronic components, and for use in precision mechanics, pneumatics and hydraulics. These brushes usually are used in hand-operated grinders.
