On Stock as per Catalogue	Yes
Catalogue Page	143
Product Description short	Wheel brush with a diameter of 80 mm, shank diameter of 6 mm and brass wire filling

info@lessmann.com | +49 9082 707-0

Product Description long	The wheel brush is used to remove rust, paint, etc., clean welds and for light deburring work. The brush can be mounted in hand-operated grinders and flexible shafts. The brass filling is suitable for soft and sensitive surfaces. The wheel brush, with its integrated 6 mm shank, is suitable for professional use. The dense wire filling and perfectly balanced running properties are characteristic of this product. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, and in stair, railing and container construction.
Processed Surface	Bronze | Copper | Zinc | Cast iron | Steel
