| Product Description long | <p>The knot bevel brush is suitable for use with hand-operated angle grinders to process weld seams or to remove scale, rust, paint, slag and residual concrete. The brush with steel wire is well suited to large steel surfaces. The aggressiveness is: hard. Thanks to its special bevelled shape and thread, it is the preferred brush for hard-to-reach areas. The knot bevel brush has left-twisted knots that increase its durability. Of premium "Made in Germany" quality, this product is primarily used in factories and the skilled trades for metalworking, in car repair shops, and in stair, railing and container construction.</p> |

## Description

### Knotted bevel brushes

With their special shape, knotted bevel brushes from LESSMANN are ideal for getting into hard-to-reach areas. The brushes are suitable for use with hand-operated angle grinders to process weld seams or to remove scale, rust, paint, slag and residual concrete. The knots are left-twisted to promote a longer service life: Left-twisted wire knots prevent the bundles from opening prematurely when the brush is used at an angle.
