Description

Knotted bevel brushes

With their special shape, knotted bevel brushes from LESSMANN are ideal for getting into hard-to-reach areas. The brushes are suitable for use with hand-operated angle grinders to process weld seams or to remove scale, rust, paint, slag and residual concrete. The knots are left-twisted to promote a longer service life: Left-twisted wire knots prevent the bundles from opening prematurely when the brush is used at an angle.

Brushes for brushcutters

Brushes from LESSMANN for brushcutters are ideal for removing weeds on yard pavers, kerbstones, cobbled areas or areas that are hard to reach. These special brushes effortlessly and lastingly clean large surface areas, such as courtyards, terraces and long pathways. What is more, removing weeds with brushes is eco-friendly, removing weeds fast and effectively. ATTENTION: Strict safety rules apply when working with brushes on brushcutters. Be sure to read the data sheets provided with the brushes.
