Description

Knotted wheel brushes

Knotted wheel brushes from LESSMANN are used in angle grinders and stationary machines for weld preparation and finishing (fillet and butt welds). The aggressive brushes remove scale, rust, paint, slag and rubber residue, and deburr edges. The knots are left-twisted to promote a longer service life: Left-twisted wire knots prevent the bundles from opening prematurely when the brush is used at an angle.

Brushes for brushcutters

Brushes from LESSMANN for brushcutters are ideal for removing weeds on yard pavers, kerbstones, cobbled areas or areas that are hard to reach. These special brushes effortlessly and lastingly clean large surface areas, such as courtyards, terraces and long pathways. What is more, removing weeds with brushes is eco-friendly, removing weeds fast and effectively. ATTENTION: Strict safety rules apply when working with brushes on brushcutters. Be sure to read the data sheets provided with the brushes.
