Article Description Marketing	Knot Bevel Brush for battery-powered brushcutters
On Stock as per Catalogue	Yes
Catalogue Page	69
Product Description short	Knot Bevel Brush with 22 knots, 175 mm diameter, bore with 25,4 mm diameter, and steel wire filling, for use on battery-powered brushcutters

Product Description long

This model is particularly lightweight and therefore achieves excellent results even on less powerful battery-powered scythes and brushcutters. The outer cap is designed to be mounted on all common manufacturer devices without an adapter. The Knot Bevel Brush for battery-powered brushcutters is ideal for removing weeds from curbs, concrete or paved surfaces. The special brush effortlessly and sustainably cleans larger areas such as driveways, terraces, or long paths. Removing weeds with brushes is environmentally friendly and harmful plants are removed quickly and effectively. ATTENTION: Increased safety rules apply when working with brushes in grass trimmers. Please note the information on the information sheets enclosed with the brushes. The high-grade "Made in Germany" quality is often used in gardening and landscaping, construction companies, communal services, construction yards and by DIY workshops.
