Description

Knotted cup brushes

Knotted cup brushes from LESSMANN are ideal for heavy duty use, e.g. to prepare metal surfaces for painting or remove slag, rust, scale and residual concrete. The knots are left-twisted to promote a longer service life: Left-twisted wire knots prevent the bundles from opening prematurely when the brush is used at an angle.

Brushes in cut cases

Cut cases are perfect for presenting a relatively large number of products. The brushes can be quickly and easily integrated in a modular self-service wall.
