Application	Cleaning
Application Description	The tube brush is used for cleaning tubes, grates, sleeves and cylinders.
Article Description Marketing	Tube brush IBG
On Stock as per Catalogue	Yes
Version	with thread
Single/Double Spiral	Single spiral
Catalogue Page	125
Product Description short	Tube brush IBG with a total length of 115 mm, diameter of 10 mm, M6 external thread and transparent PA nylon filling

Product Description long	The tube brush is used to manually remove dirt and residues. The nylon filling is suitable for soft and sensitive surfaces. The tube brush with external thread is a preferred choice in a wide variety of fields. It can be used to clean tubes, grates, sleeves and cylinders. For use on interior areas, the diameter should be selected to match the workpiece. The external thread makes it possible to extend the brush using the corresponding handles. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, repair shops, industrial companies, by DIYers, and in the HVAC and plumbing sectors.
