Product Description short	Tube brush IBG with a total length of 150 mm, diameter of 22 mm, W1/2" external thread and 180-grit silicon carbide bristles

Product Description long	The tube brush is used to manually remove rust, dirt and paint. The tube brush with external thread is a preferred choice in a wide variety of fields. It can be used to clean tubes, grates, sleeves and cylinders. The tube brush is also suitable for deburring cross bores and rounding edges. Its high-quality silicon carbide bristles meet these special requirements. For use on interior areas, the diameter should be selected to match the workpiece. The external thread makes it possible to extend the brush using the corresponding handles. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, repair shops, industrial companies, by DIYers, and in the HVAC and plumbing sectors.
