Single/Double Spiral	Single spiral
Catalogue Page	144
Product Description short	Tube brush IBG with a total length of 150 mm, diameter of 20 mm, W1/2" external thread, steel wire filling and hanger

Product Description long

The tube brush is used to manually remove rust, dirt and paint. The steel filling is suitable for steel surfaces. The tube brush with external thread is a preferred choice in a wide variety of fields. It can be used to clean tubes, grates, sleeves and cylinders. The tube brush is also suitable for deburring cross bores. For use on interior areas, the diameter should be selected to match the workpiece. The external thread makes it possible to extend the brush using the corresponding handles. The version with a hanger makes it easier for retailers to display the products. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, repair shops, industrial companies, by DIYers, and in the HVAC and plumbing sectors.

Description

Tube brushes with thread

Tube brushes with thread from LESSMANN are a preferred choice in a wide variety of fields. They can be used to clean tubes, grates, sleeves and cylinders, and even to regulate the flow rate in pipeline systems. They are also used to deburr cross bores and the like.

Brushes with hanger

With this hanger, individual tube brushes with thread can be easily and inexpensively displayed on your self-service wall. The clearly designed labels give customers the most important technical data. An EAN code ensures easy scanning.
