Product Description short	Back board brush IBG, oval, with a diameter of 80x150 mm, W1/2" external thread and steel wire filling

Product Description long	The back board brush is used to manually clean boilers. The steel filling can be used even if a boiler is warm. Cleaning boilers increases a system’s efficiency and reduces pollutant emissions. The LESSMANN back board brush boasts high-quality materials and precision manufacturing. The external thread makes it possible to extend the brush using the corresponding handles. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, industrial companies, by DIYers, and in the HVAC and plumbing sectors.
