| | |
|---|---|
| Product Description long | The micro interior brush is used for the manual or machine cleaning and deburring of bores and cross bores, and for polishing and rounding edges. Its high-quality silicon carbide bristles meet these special requirements. For use on interior areas, the diameter should be selected to match the workpiece. Of premium "Made in Germany" quality, this product is frequently used in the metalworking and automotive industries. |

## Description

**Micro interior brushes**
Micro interior brushes from LESSMANN are particularly suited to deburring bore holes, cross bores and O-ring recesses in complex workpieces, and for cleaning nozzles and small bore holes. The brushes can be machine-powered or used manually.
