Product Description short	Cylinder brush IBZ with a total length of 330 mm, diameter of 35 mm, brass wire filling, brass twisted wire and loop

Product Description long

The cylinder brush is used to manually remove rust, dirt and paint. The bronze filling is suitable for soft and sensitive surfaces. The cylinder brush with loop is a preferred choice in a wide variety of fields. It can be used to clean tubes, grates, sleeves and cylinders. The cylinder brush is also suitable for deburring cross bores. For use on interior areas, the diameter should be selected to match the workpiece. Of premium "Made in Germany" quality, this product is frequently used in the skilled trades, repair shops, industrial companies, by DIYers, and in the HVAC and plumbing sectors.

Description

Cylinder brushes with loop

Cylinder brushes with loop from LESSMANN are used to manually remove rust, dirt and paint. The brushes are a preferred choice in a wide variety of fields. They can be used not only to clean tubes, grates, sleeves and cylinders, but also to deburr cross bores.

Low-sparking brushes

LESSMANN low-sparking brushes are recommended for working in areas where combustible or highly flammable vapours, liquids or dusts are present, and in all other situations in which sparks pose a potential risk of fire or an explosion hazard.
